

### **Himalayan “pure salt crystal”**

This pure salt crystal is mined in Northern India, high in the Himalayans. It is then tested for quality, impurities and mineral content, before being shipped to Canada packed in a sterile cotton bag and hand-made box. We suggest you handle it in the cotton bag in order to keep it clean.

This pure salt crystal makes an interesting conversation piece on your dining room table. Use it by grating it on a micro plane like you would parmesan cheese. If it gets soiled or dirty, simply wash in hot water and dry well. The next time someone says pass the salt, surprise them with this unique culinary offering!
